

BPEX PCV2 VACCINATION RESEARCH PROGRAMME APPLICATION FORM

AUDIT RECORDING QUESTIONNAIRE

For office use only:	
FARM / registration ID:	
Voucher number:	

Personal and contact details			
Farm Owner's Name:			
Farm Contact Name:			
Farm address:			
Postcode:		County:	
Contact Telephone No.:			
Contact email address:			
Farm Veterinarian		Tel. no.	
Veterinary practice:		Tel. no.	
Farm details			
Sow herd size:			
Type of unit: <i>Please tick the correct box and enter details if none of the specified options apply.</i>	1. Farrow to finish		<input type="checkbox"/>
	2. Weaner producer supplying:	Single source	<input type="checkbox"/>
		Multi source	<input type="checkbox"/>
			<input type="checkbox"/>
	3. Finishing/growing unit, with weaners supplied by:	Single breeding source	<input type="checkbox"/>
		Consistent multi source	<input type="checkbox"/>
		Varying multi source	<input type="checkbox"/>
			<input type="checkbox"/>
CPH number:			
Marketing group:			
Farm assurance: <i>Please tick the correct box</i>	ABP <input type="checkbox"/>	Genesis <input type="checkbox"/>	None <input type="checkbox"/>
	Number:	Other _____ (specify) <input type="checkbox"/>	
Slap Mark:			
Do you use a PCV2 vaccine at present?	Which vaccine:		
	When did you start: ___/___/___ (dd/mm/yyyy)		
Do you vaccinate for other pathogens <i>(Please tick app box)</i>	PRRS <input type="checkbox"/>	EP <input type="checkbox"/>	Parvovirus <input type="checkbox"/>
	Date of NEXT quarterly veterinary visit:		
Are you a member of BPHS?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
Did you participate in the Warwick PMWS study?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	

BPEX Ltd (BPEX) in collaboration with the Royal Veterinary College London (RVC) will require data collection from the farm as part of the PCV2 vaccination research programme. The data will be used to assess the efficacy of this vaccine in the pig industry in England, to measure the benefit of PCV2 vaccination for the pig producer and to identify environmental, management and genetic factors affecting the severity of PMWS on a farm and potentially influencing the success of the vaccine. This study will provide important insights for controlling the disease in the future. In order to save you time when completing the questionnaire we would like your permission to access information from Farm Assurance Schemes, ZAP Salmonella programme, British Pig Health Scheme (BPHS), physical performance records (eg Agrosoft), the Warwick University study on PMWS in which you may have participated and from your herd Veterinarians, and to use it for the purposes of this research programme.

Please see the Terms and Conditions for participation in this research programme attached before ticking the boxes below.

- I have read and agree** to the terms and conditions of this trial
- I agree** to BPEX and RVC having access to data relevant to this research relating to the farm and its pigs from:
- (i) the Farm Assurance Scheme(s) indicated above
 - (ii) the Salmonella ZAP monitoring program,
 - (iii) BPHS,
 - (iv) Physical performance records (eg Agrosoft)
 - (v) The farm veterinarian, and
 - (vi) The 2003 Warwick study on PMWS.

All the information obtained in relation to this research will be treated as strictly confidential and used solely for the purposes of this RVC and BPEX PCV2 project. The results will be published on an anonymous summary basis on the BPEX website. It is expected that the results will be published in April 2009.

Please, note that all the conditions have to be accepted and all the questions need to be completed for the farm to be eligible to be included in the vaccination research programme.

I hereby declare that I am authorised to sign on behalf of the farm.

Signed _____ Date _____

Name: _____ Position _____

Please apply on line at www.BPEX.org.uk - the preferred route, or
Please return this application form either by post or fax to the address below.

The vaccination voucher will be sent to your unit subject to resource limitations once we have received the application form and checked that it has been completed correctly.

BPEX PCV2 VACCINATION RESEARCH PROGRAMME

Terms and Conditions

- I agree to receive a visit from RVC staff to enable completion of the questionnaire.
- I agree to provide blood samples on one occasion from a maximum of 20 animals whether collected by the farm veterinarian as part of the routine veterinary visit or by a veterinarian working on behalf of the RVC. (NB All the laboratory analysis will be free of charge and you will receive the all the results of the tests on your blood samples.)
- I agree to allow staff from BPEX/RVC to access information from the data sources specified below and to use it for the purposes of this research.
- I agree to complete further questionnaires sent to the farm, for follow-up on performance following vaccination.
- I understand that the research is cash limited and participation will be on a first come, first served basis.
- I understand that BPEX will fund the research for a maximum of 9 months for any individual pig unit but this period may be shortened depending on cash availability.
- I understand that the scheme is open to all pig producers in England and only to such producers.
- I agree that the vaccine provided in connection with this research will be used solely on the unit detailed above.
- I agree that BPEX cannot be held responsible for lack of or delays in vaccine availability. In the event of unavailability of a particular vaccine, BPEX reserves the right to terminate this research.
- I understand that BPEX reserves the right to audit all aspects of this research. I hereby agree to allow BPEX representatives to have all necessary access to the farm at any reasonable time and to view and take copies of any documents relevant to this research.
- I agree not to hold BPEX and/or RVC responsible for any loss or damage resulting directly or indirectly from this research howsoever caused and whether or not as a result of negligence by BPEX, RVC or their employees or agents.
